I understand the Easy Pump Prerequisites and Printer Specifications:	○ Yes	○ No

Please add any additional notes that may be relevant to the install

Easy Pump Network Info

Freedom ELECTRONICS

Terminal IDs must be added by the network for each fueling point/terminal being upgraded, prior to placing an order.

1. **The site owner/manager must request the additional terminal ID(s) from their network merchant/ISO.**

   - Example: (3) Dispensers will have (6) fueling points. (6) Terminal IDs will need to be added to the site profile.

   - How many fueling points are you upgrading? _____ This is the number of <u>additional</u> Terminal IDs needed.

   - First Data sites use Authorization ID Type **RB** – Rapid Connect - Self Registration.

2. **Request a VAR/Parameter Sheet from the network merchant/ISO.**

   - Email the VAR/Parameter sheet to your Freedom sales representative. It should include the following information for First Data or Heartland, depending on your network:

First Data (Buypass)		Heartland (HPS)	
Debit Key	*For debit processing*	Debit Key	*For debit processing*
Merchant ID	*Buypass ID*	Company ID	*NWS Company ID*
Terminal IDs Added	*Added by First Data*	Terminal IDs Added	*Added by Heartland*
Group ID*	*Typically 20001*	Device IDs*	*Last 4 of TID*

Only payments processed through First Data or Heartland will be accepted. Any other proprietary or 3rd party networks will not be processed at the dispenser terminals.

Freedom Electronics 800-761-9369
First Data: 800-726-2629
Heartland: 800-767-5258
Sinclair: 800-524-4799

This page may be emailed to the network representative to assist in this process. Contact Freedom Electronics Technical Support for assistance.

Easy Pump Prerequisites

Gilbarco

- Dispensers will require printer replacement for proper operation.
- Dispensers with 10.4" displays CANNOT be upgraded at this time.
- Non-CRIND 300/500 and 500S/700S dispensers CANNOT be upgraded.
- Non-CRIND and CRIND Advantage dispensers CAN be upgraded.

Wayne Vista Keypad Specifications

- Vista kits are ONLY available to upgrade from TRSM keypads. These keys have a flat surface.

- Vista kits are NOT available to upgrade from SPM keypads. These keys will protrude.

Wayne

- Dispensers with DW-12, DW-10, and Clamshell printers can be upgraded with the standard kit.
- Dispensers with Tearbar printers will require the FE-Tear Bar Kit for proper printer operation. (sold separately)
- DCPT Robust printers are NOT compatible with Easy Pump.
- Dispensers with 10.4" displays will require 5.7" panels to upgrade. Part# 887818-002-XXX – colors vary.
- Non-CAT Ovation and Vista dispensers CANNOT be upgraded.

Verifone

- The Verifone Commander/RubyCi must be minimum Base 51.
- Only First Data and Heartland, Unbranded and Sinclair locations are certified at this time.
- A Cybera Enhanced Zone Router or MNSP is required.
- If using a Cybera EZR, it must still be commissioned by Cybera and able to obtain a VPN.
